The traditional wash-day tests a woman's strength to the full. Her back is bent continually over the washboard. She lifts and carries all day long. Frequently she leaves the steaming laundry to rush into a draught of air and incur the danger of a severe cold. What must a woman endure who does these things when she is suffering from womanly diseases? Every movement must be painful to her and aggravate her condition.

Forty-nine women out of fifty who suffer from womanly diseases can be perfectly and permanently cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"In the year 1899 I was taken sick," writes Mrs. Edna Crowder, of Ripley, Landerdale Co., Tenn. "My limbs ached, had severe pains in back and lower part of bowels. I tried many kinds of medicine and four of the best doctors in the country, until I gave up all hope of recovery. In January 1901 I wrote to Dr. R. V. Pierce, of Buffalo, N. Y., and received from him a letter telling me to try his medicines. I took eleven bottles, six of 'Favorite Prescription,' five of 'Golden Medical Discovery,' one of 'Pellets' and used one box of 'Lotion Tablets' and one of 'Healing Suppositories,' and am now able to work at anything I want to. Thanks to you for your valuable medicines and kind advice."

Keep the bowels healthy by the timely use of Dr. Pierce's Pellets. They cure constipation and its many consequences.

His son, Asa Chinn, was seriously wounded in a fight with the two burglars. They made their escape from the window by which they had entered the house. The Lexington police are at work on a clew which may result in the arrest of the robbers. The Lexington police have discovered some valuable circumstantial evidence connecting the young tramp suspects, Earl Whitney and Claude O'Brien, with the murder. The boys are restless and nervous under confinement, and the police believe that O'Brien will soon break down. Whitney is from Nashville, where he has been in trouble frequently. He has a fresh wound in his leg, and when the bullet was extracted at the jail it was found to be of the same caliber as that fired from Asa Chinn's pistol.

Recommendation.

Hubble, Sept. 13, 1902. We the undersigned have seen an Ideal Deering Corn Binder at work on Mr. McKeechle's farm today and can say, while it was tried in corn deep and ripe, and on ground that was very steep, it did splendid work, in fact, we could not ask for a corn binder to do better work than it does, as it does the work as well as a wheat binder does in a wheat field. It knocks off no more corn than a man will cutting it by hand, and we take pleasure in recommending it to be all they claim for it.
